

CorporateProfile

Harland Technology Services' Corporate Profile.

Harland Technology Services is headquartered in Omaha, Nebraska, and operates out of over 160 strategically located centers across the United States. We have been providing maintenance services for over 30 years and are a wholly owned subsidiary of John H. Harland Company.

Our team of over 300 employees is committed to delivering the highest level of customer service.

Harland Technology Services is a nationwide provider of installation, maintenance and repair services for over 13,000 customers. We offer comprehensive solutions for companies using Intel-based network personal computers and servers, IBM pSeries, printers, terminals, proof machines, image scanners, data communications equipment and peripherals.

Harland Technology Services is the sole source provider of installation and repair services for Scantron's Optical Mark Reading (OMR) products. Harland Technology Services has the services and experience necessary to keep businesses running smoothly and productively.

Highlights

- Wholly Owned Subsidiary of John H. Harland Company
